### ***About The a2 Milk Company***

- The a2 Milk Company is building a global business based on a differentiated, premium and branded portfolio of dairy and infant formula products supported by an integrated portfolio of intellectual property and a comprehensive body of scientific evidence
- The a2 Milk Company believes as many people as possible should be able to enjoy the benefits of fresh and natural dairy and are providing a positive alternative to those who find consumption of regular cows' milk challenging
- The a2 Milk Company has a significant and differentiated premium dairy business in Australia with over 9% value share of the total fresh milk grocery market and more recently has established operations in China, the UK and the USA
- The a2 Milk Company Limited is dual listed on the NZX and ASX and trades under the codes ATM and A2M respectively

### ***About the a2 Milk™ brand***

- The a2 Milk™ brand is a naturally occurring cows' milk that comes from cows selected to produce only the A2 beta-casein protein and not the A1 protein. It is an entirely natural and pure cows' milk and not a product of technological process or genetic engineering
- Originally all domesticated cows produced only the A2 type protein. Owing to a genetic mutation in European herds, another milk protein emerged (A1 protein) and through modern farming practices spread throughout the world
- The a2 Milk™ brand is the only cows' milk that is free from the A1 protein
