- Group EBITDA\(^2\) before non-recurring items of $4.8 million up 35% on pcp
- ANZ total sales up 42% on pcp in AUD - exceptional growth in infant formula
- ANZ operating EBITDA\(^3\) increase of 60% with strong growth expected to continue
- Infant formula direct sales to China building following distribution changes
- Revised UK product format and positioning implemented with broader distribution
- USA business established, positive trade response, distribution building
- NPAT loss primarily due to ASX listing costs and employee share scheme expenses (non-cash)
- High effective tax rate given non-deductible expenses\(^4\) and UK and USA losses

---

1. Before non-recurring items
2. EBITDA is a non-GAAP measure and represents earnings before interest, tax, depreciation and amortisation
3. Operating EBITDA is EBITDA before inter-company charges
4. Non-deductible expenses primarily relate to costs associated with the ASX listing and the Company’s employee share scheme

1. FY16 corporate costs include a significant increase in research & development and additional costs to support business growth.
Cash Position

Group Cash Movement: FY14 - FY15
(NZ$ million)

- Working capital movement driven largely by an increase in inventories and prepayments relating to infant formula
- Investments in intangibles include costs associated with USA entry (NZ$2.7 million)
- FX and other includes gains on foreign currency cash holdings
Australia and New Zealand

- Australia and New Zealand segment revenue grew by 40% vs pc observed pcp
  - a2Milk™ fresh milk sales increased 10% in AUD on pcp, a2 Platinum® infant formula increased ~650%
- White milk market share circa 9.3% by value in grocery at June 2015 (Australian Grocery Weighted Scan, MAT)
- Marginal reduction in fresh milk gross margin given higher farm gate prices
- a2 Platinum® infant formula performance a standout
  - Broad reaching distribution across Coles, Woolworths, Independents and Pharmacy
  - Fastest growing infant formula brand in Australian grocery in Q4 FY15
  - Proportion assumed on-sold into China via cross border channels
  - Stock shortages experienced during 2nd half due to above expectation sales
  - Estimated grocery market share of ~12% (13 weeks ending 11 August 2015 by value)
  - Sales for first 2 months FY16 estimated at ~AU$13 million
- a2 Milk™ whole milk powder successfully launched into one retailer in June 2015
- a2 Ice Cream™ launched into one retailer from August 2015
- Significant growth in operating EBITDA forecast for FY16; first two months trading result significantly ahead of both pcp and forecast
China

- China regulatory changes during calendar 2014 limited direct sales to China
- Marketing funding continued to assist sale of in-market inventory and build brand awareness
- Changes to supply and distribution arrangements from November 2014: a2MC\(^1\) assumed in-market distribution management, China State Farm ongoing import agent and government relations partner
- a2MC Shanghai based team expanded to eight in August 2015, now includes sales and e-commerce personnel in addition to marketing and HCP resources
- a2 Milk™ fresh milk sourced from Australia launched into China from August 2014
- “The a2 Milk Company™” store launched on T-mall Global selling NZ label a2 Platinum® infant formula direct to Chinese consumers from July 2015

- Positive EBITDA forecast for FY16, inclusive of increased brand development costs

\(^1\) The a2 Milk Company Limited (a2MC)
Expanding China distribution network
United Kingdom

- Revised business model in place since March 2015
  - Grow distribution in existing and new accounts
  - Build awareness of A1 protein intolerance in targeted manner
  - New 1 litre pack format, enhanced price position
  - Significantly improved unit margins
- New fresh milk format now ranged in specialty milk segment in key grocery accounts:
  - J Sainsbury from November 2014
  - Tesco, Waitrose, Ocado and Morrisons from March 2015
- Volume build slower than planned given the phased timing of retailer reviews
- Product portfolio to broaden with planned launch of UHT milk and infant formula
- Supply partner Müller Wiseman Dairies supportive
- FY16 EBITDA loss forecast to reduce by ~50% to GBP 2.0 million
United States of America

- Phased launch of a2 Milk™ brand into Southern California commenced from April 2015
  - ½ gallon ESL carton, consistent with specialty milk segment
  - Plan to achieve circa 65% retail weighted distribution end August 2015
  - Objective to achieve similar distribution in Northern California commencing from September 2015
    - Product ranged in California and certain specialty national accounts
- Roll-out plan is now focussed on building distribution across select national customers with a track record of supporting innovative healthy product launches
- Progress on building internal capabilities: management team in Boulder Colorado to manage sales, marketing, finance, supply chain, quality systems and milk supply
- Recruitment of farmer base progressing positively
- A quality contract manufacturer appointed from March 2015, developed plans for managing growth
- Leading national broker has been appointed to assist in managing retailer relationships
- Marketing activity to ramp up from 1st quarter FY16 with new communication campaign
- Business plan continues to assume investment of ~US$20 million over 3 years from launch
Initial USA consumer and retailer engagement favourable

- Growing consumer engagement across digital and social media platforms
- a2milk.com; YouTube; Facebook; blogger forums
- Anticipated on shelf presence in ~65% retail weighted distribution by end August in Southern California
- Northern California to follow
- Sprouts and The Fresh Market nationally

The Company continued to develop its portfolio of IP, and invest in targeted research and development associated with the benefits of the A2 protein.

Four new provisional patent applications were filed relating to benefits and testing methodologies associated with A1 protein free products, with relevance for both liquid and powder products.

Further scientific progress made in FY15:
- Company sponsored human clinical study conducted in China was completed and submitted for publication. The results show further support for the digestive benefits of milk free from A1 protein.
- Further human studies have commenced in other markets to build upon these findings.

Continued progress in developing and applying brands consistently in global markets across packaging, communication and digital assets:
- Several trade mark applications achieved registration and further new filings made.
- New advertising campaigns developed for USA (Aug 2015) and Australia (Oct 2015).
